[PDF] CenterTrack: An IP overlay network for tracking DoS floods

R Stone - Proceedings of the USENIX Security Symposium, 2000 - stone.gov.cn

Finding the source of forged Internet Protocol (IP) datagrams in a large, high-speed network is difficult due to the design of the IP protocol and the lack of sufficient capability in most high-speed, high-capacity router implementations. Typically, not enough of the routers in ...

[\[PDF\] from psi.edu](#)**Development of a functional basis for design**

RB Stone - Journal of Mechanical Design, 2000 - link.springer

Functional models represent a form independent blueprint of a product. As with any blueprint or schematic, a consistent language or coding system is required to ensure others can read it. This paper introduces such a design language, called a functional basis, where product ...
